

Science at Coalway Infant School

Children use their curiosity to ask questions.

Children can practically explore their curiosities.

Science explores the real world (being outside).

Children can understand and use scientific vocabulary.

Science is visible in the school environment.

Our Science vision

At Coalway our children are aspiring scientists. We nurture their curiosity through a range of hands on experiences while being guided to use concepts and scientific vocabulary.

Children are inquisitive.

Science is hands on (practical).

Children can talk about a range of Science concepts.

Children make observations and talk about them.

Inspires the scientists of the future.
