

Objective - Create

Select from and use a range of tools and equipment to perform practical tasks.

Select from and use a wide range of materials and components (including construction materials and textiles) according to their characteristics.

Once we had explored a variety of materials and carefully designed our moon buggies we thoroughly enjoyed creating the moon buggies. We all chose different methods to attach the wheels and axles.

I used masking tape to stick the axles on the plastic bottle.

Gracie-May

I pushed my axles through the bottle and used tissue paper and glue to stick my wheels on.

Jake

I chose a square box for my moon buggy. I stuck my axles underneath the buggy.

Scarlet

I used tissue paper to stop the wheels falling off.
