

*This is what the children thought about their designs...*

It was tricky to put glue inside for the stick so I put it outside with cello tape.

Ollie

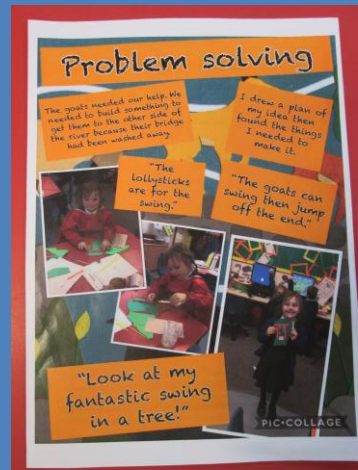

I used straws but they weren't strong enough so I used lolly sticks.

Elsie

I tried the normal cello tape but it didn't stick then I used the glue in the pot but that didn't work either. I had to go to the office to get bigger sticky tape and then it worked.

Freya

*Finally, we invited Classes 1 and 2 parents in to school to see our fabulous Design Technology projects. This is what they thought about Classes 1 and 2's fabulous work...*

I love how creative the children have been. Zack has really enjoyed this project and loved telling me all about it.

Caleb's submarine is fantastic and should get to the other side of the river easily!!

I love Charlie's drawing of his spring shoe. He really enjoyed being creative and telling me all about it.

Great imagination! Loved seeing Harley making wonderful ideas and solving problems.

Well done Classes 1 and 2! A fantastic Design Technology project!
