

Home Learning - Year One - Autumn - Term Two

Home Learning. Well done to children and parents! Everyone has been working very hard on the homework projects set in Term One. As many of the children have completed all the tasks set, we have added a few extra ideas for you to choose if you would like to. We will really treasure your work so send it in as soon as possible so it can be shared with your friends and then displayed on our special home learning wall in the classroom.

Science/Geography

Draw pictures to show how a plant or a tree changes throughout the seasons of the year.

Challenge: Can you label your drawing showing the different parts of the plant/tree?

English

Read your favourite story. Make a story map of the story to help you retell the story to your friends.

Challenge: Can you add sequencing words eg: first, next, later, finally?

Maths

Practice ways of making 10 (number bonds) using addition. Write the number sentence or draw pictures to show the different ways you have found.

P.E.

On your bike/scooter/roller-skates can you travel in different shaped lines eg zig-zag, wavy, straight.

Challenge: Can you set up an obstacle course to travel around? Use objects from your garden or house. Ask a grown up to help you take a photograph of your obstacle course.
