

Our Wonderful World!! Reception Home Learning Term 6 2022

This term Classes 1 and 2 will be learning about life cycles, life in other countries and how to use their mathematical knowledge to solve practical problems. Please choose at least 2 of the following home learning projects to complete before the end of term. As soon as any task is completed send it in to school-all work will be treasured and displayed on a special homework board. Please let us know if you need anything to help complete a task. Remember-it's okay for an adult to help your child write or write for them if needed. The children can use the internet to help them as long as an adult knows they are doing so.

Create a game using doubles. Ask a grown-up to write down your rules so you can play it at school.

Draw and label pictures of your family in order of their ages.

Draw and label a life cycle of the animal or minibeast of your choice.

Go on a minibeast hunt in your garden or another outdoor area. Draw and label what you find.
