

Mathematics

We will continue to read, write and order numbers to 20.

We will explore addition by counting on (with numbers to 20), including finding and making number bonds.

We will add combinations to 10 using resources and counting on.

We will further practise subtracting amounts from 20.

PSHE

We will learn how to look after ourselves and our environment - at school or at home.

We will be able to explain some ways that we can look after our money.

English

This term we will focus on the text 'The Train Ride' by June Crebbin.

We will use this text to practise sentence writing, including the use of adjectives, verbs and adverbs. We will write our own train ride story.

We will act out a train ride experience and use virtual resources to enhance our understanding.

Phonics

We will learn Phase 5 sounds and apply these to our reading. We will also revise the sounds within Phases 3 & 4. The next set of Year 1 tricky words will be introduced and copies sent home for practise.

**What Can You See?
What Can You See?**

Term 3 2022

Year 1: Classes 3 & 4

P.E.

We will focus on the following skills:

Ball skills - We will explore ball skills such as throwing, catching, rolling, aiming at targets, dribbling and kicking

Fitness - We will explore the benefits of exercise and a healthy lifestyle.

Art

We will look at work by the artist George Seurat. We will focus on the theme of trees, exploring Pointillism.

Religious Education

We will learn how people show that they care for others, giving examples of how Christians and Jews can show care for the world. We will say why Christians and Jews might look after the natural world, making connections between the two religions.

Science

We will be working scientifically to create a boat for a specific purpose.

We will investigate materials and their properties.

Geography

We will learn about our school environment, Coalway and Coleford. We will find out about the physical features and learn how to compare these localities. We will also explore simple mapping skills.

I.C.T We will learn how to programme a 'BeeBot' using commands known as algorithms. We will also learn how to use ICT safely.

Music

We will learn to perform the song 'In The Groove' adding musical instruments to perform and share.
